## ***You Need To Succeed At Work***

In 12 Essential Skills for Software Architects, Hendricksen begins by pinpointing the specific

*Page 123/144*

relationship, personal, and business skills that successful architects rely upon. Next, he presents proven methods for systematically developing and sharpening every one of

*Page 124/144*

these skills, from negotiation and leadership to pragmatism and vision. Now, in **12 More Essential Skills for Software Architects** he turns to the technical side. Drawing on his decades

*Page 125/144*

of experience, Hendricksen organizes technical skills into three areas. PROJECT SKILLS: driving projects from ideation through delivery TECHNOLOGY SKILLS: building, buying, and/or

*Page 126/144*

leveraging the right  
technologies VISIONARY  
SKILLS: realizing an  
architectural vision that  
improves long-term  
competitiveness

This is a follow-on book to

David Hendricksen's 12  
Essential Skills for Software  
Architects. The first time  
round, Hendricksen covered  
'soft skills' - relationship,  
personal, and business skills  
and Sue Gee, I Programmer's
