S.N.A.F.U. is the satirical fictional story of Snaford University Jewish Hospital which

explores the changing dynamics that have had a profound effect on the practice of medicine. As the acronym SNAFU implies, chaos and confusion abound. Nothing is the way it seems. Some may consider this over the top satire, others a cleareyed portrayal of hospital affairs and a clash of cultures-- the medical profession vs the corporate world which now controls it. Physicians must continue to care for the sick in an environment of increasing absurdity. S.N.A.F.U. explores this dilemma using satire mixed with realism, giving you the same choice doctors face every day: whether to laugh or cry.

The Marine Electrical and Electronics Bible

From c. 1100 until c. 1170, Latin prosimetrical texts characterized by dialogue, allegory, and philosophical speculation enjoyed a notable popularity within the cultural ambit of the French cathedral schools. Inspired by Boethius (TM) "Consolation of Philosophy," the prosimetrum writers applied his literary techniques to the ethical and anthropological concerns of their own era, producing texts of great artistry in the process. This book investigates the rise of the Boethian impulse in Latin, the innovations of the twelfth-

century writers, the difficulties that arose when they attempted to recapture the certainty that characterized the "Consolation," and the survival of aspects of this literary mode in later Latin and vernacular literature.
