Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

The consumer edition of the authoritative price guide includes retail data on domestic and imported cars, trucks, and vans, acceptable mileage ranges, and costs of specific optional factory features.

"You don't need an alibi, you need a jury of your peers," her co-worker idly commented as he took his lunch out of the microwave. What would happen if a man went missing and no one missed him? In fact, what if his subordinates and his colleagues are rather pleased to not have to deal with him? Life and work might be very pleasant for a while. That is until the police show up to figure out what happened to him. Suddenly, everyone is looking over their shoulder as suspicion seeps into relationships. Past conversations are dissected, casual yet heated exchanges are recalled, and innocent remarks suddenly don't seem so innocent. As the police investigation heats up, extraordinary things begin to happen. Will an alibi be enough, or will a jury of your peers be the answer?
