The follow zip files contain the ArtCAM post processor for use with LinuxCNC  
or PlanetCNC software. A post is provided for Inch and MM. After you unzip  
the file, the folder will contain two post processors for ArtCAM. You will place  
these in the PostP folder under ArtCAM2013.

Get a Special Price on your next TypeEdit purchase for Artcam users. With the ending of Artcam's product line and support, machine users and industry workers need CAD CAM software replacements. TypeEdit is the perfect alternative to Artcam. Similar functionalities, better advanced tools, we will not let you down. Our solution is more than 25 ...

## **Replace Artcam with TypeEdit | Type3**

Raised Round Module: The ArtCAM Express Raised Round Module is ideal for foil and embossing dies with lettering as it generates engraving toolpaths directly from the vector artwork. Determining the optimum height and shape, this strategy enables you to create a tapered edge to the letter design so that there are no sharp edges that would otherwise pierce through the material.

The most important enhancement in ArtCAM Pro's machining is a new 3D offset strategy that gives a much better surface finish with harder materials. This will be especially useful when machining production tooling from ArtCAM designs, such as dies for greeting cards, and when engraving decorations created in ArtCAM into moulds for plastics.
