

# **C4ISR For Future Naval Strike Groups By National Research Council Author 2006 Paperback**

The value of C4ISR to naval strike groups is best measured in terms of its contribution to warfighting, and C4ISR is becoming central to naval strike groups' combat capabilities. C4ISR is not just an enabler of more-efficient and -effective operations, but it provides the information and the command and control essential to the success of operations.

C4ISR for Future Naval Strike Groups The U.S. Navy has proposed a new structure for its strike forces that will enable more effective forward deterrence and rapid response. A key aspect of the new structure is flexible, adaptive command, control, communications, computers, intelligence, surveillance, and

reconnaissance (C4ISR) systems.
