The Afterlife Revolution, written by Whitley and Anne Strieber, is among the most convincing stories of afterlife communication ever told, and is a ringing endorsement not only of the fact that we do not die, but also that the power of love can create an actual bridge between the physical and nonphysical worlds. After

Anne Strieber died in August 2015, she returned to her husband, Whitley, in an ingenious and convincing way. Whitley began to communicate with her, and The Afterlife Revolution began out of this exchange of love from both worlds. Whitley's grief at her loss has transformed into a warm and deeply satisfying new form of love. After a near-death experience in 2004, Anne Strieber became an expert in afterlife studies and created an ingenious plan of contact, which, to her husband

Whitley's amazement, she proceeded to carry out, starting just an hour and a half after she died. As verified by famed afterlife researcher Dr. Gary Schwartz, who wrote the foreword, *The Afterlife Revolution* is among the most convincing stories of afterlife communication ever told, and is a ringing endorsement not only of the fact that we do not die, but also that the power of love can create an actual bridge between the physical and nonphysical worlds. The

book points the way to a new relationship between the living and, as Anne puts it, "what you call the dead." Anne tells of her experience on the other side, saying that "we are light, alive," and that "enlightenment is what comes when there is nothing left of us but love." Her descriptions of the afterlife, communicated to Whitley from the afterlife, are brilliantly articulate and nuanced, at once deeply familiar and uniquely her own. The Afterlife Revolution shows how to

use basic tools such as what Anne describes as "objective love" combined with a simple but special form of meditation to build a relationship between physical and nonphysical worlds. It is intended to help us find that sweet point at which the souls of the living touch those of the dead. As Anne says, "Mankind is divided, not so much between the sexes as between the living and what are called the dead. It isn't natural and it isn't necessary. We can become whole." The

Afterlife Revolution is about the joy of doing just that, and the magnificent new human experience that will unfold as more and more of us learn to live in this way.

This volume is perfect for the armchair UFO enthusiast and budding scientist. This compilation of stories from leading scientists and UFO experts will pique any young person's interest in the possibility that UFOs really exist. Included are accounts from the world's

leading experts on new evidence of famous sightings as well as the unearthing of famous classified files. Also, one leading nuclear physicist says how close we are to interstellar travel. For fans of The X-Files and Roswell conspiracies, this title will dispel any doubts about the existence of alien life.

Many evangelicals are unfamiliar with it, don't understand it, and are often offended when they encounter it, but when it comes to the Lord's Supper

the Scriptures clearly teach that Holy Communion is not for anybody and everybody. In this short work of fiction Rev. Tyrel Bramwell recalls the questions he had when he first encountered closed Communion as a young evangelical and the conversations he has had as a pastor, in order to dispel false assumptions and provide the Biblical answers to real misunderstandings.

Solving the Communion

Enigma

Two of today's maverick authors on anomalous experience present a perception-altering and intellectually thrilling analysis of why the paranormal is real, but radically different from what is conventionally understood. Whitley Strieber (Communion) and Jeffrey J. Kripal (J. Newton Rayzor professor of religion at Rice University) team up on this unprecedented and intellectually vibrant new framing of inexplicable events and experiences. Rather than merely

document the anomalous, these authors--one the man who popularized alien abduction and the other a renowned scholar and "renegade advocate for including the paranormal in religious studies" (The New York Times)--deliver a fast-paced and exhilarating study of why the supernatural is neither fantasy nor fiction but a vital and authentic aspect of life. Their suggestion? That all kinds of "impossible" things, from extra-dimensional beings to bilocation to bumps in the night, are not impossible at all: rather, they are a part of our natural world. But this natural world is immeasurably more weird, more wonderful, and probably more populated than we

have so far imagined with our current categories and cultures, which are what really make these things seem "impossible." The Super Natural considers that the natural world is actually a "super natural world"--and all we have to do to see this is to change the lenses through which we are looking at it and the languages through which we are presently limiting it. In short: The extraordinary exists if we know how to look at and think about it. As Earth teeters on the brink of extinction, Christopher Goodman, cloned from the cells of Jesus Christ, vows to save the remaining people, but there are those who resist this new Messiah, which

leads to a battle between good and evil.

Primum Mystérium. The First Mystery. A chilling message scrawled in blood. A sacred object offered as a cruel Communion. Misleading evidence intentionally left behind. When Washington County investigator Chris Majek is called to the scene of a retired priest's horrific murder, little does he know the emotional chasm it will open. And little does he know that this murder is a portend of more to come. As the investigation unfolds, it reveals terrible secrets-yet the killer's identity eludes and confounds Chris and the team. As an investigator, a husband, and a father, Chris is haunted by

questions he does not want to face. How far would someone go to seek retribution for such depravity committed against the innocent? How far will the investigation go to follow his own suspicions, no matter where they may lead? As riveting as it is unsettling, Unholy Communion is ripped from the headlines exposing the scandalous epidemic rocking the Catholic Church today. Dr. Rumreich can be contacted at: forensick@aol.com From New York Times bestselling author and astronaut Chris Hadfield comes this exceptional thriller and "exciting journey" into the dark heart of the Cold War and the space race (Andy Weir, author of The Martian and Project Hail Mary). 1973: a final, top-secret mission to the

Moon. Three astronauts in a tiny spaceship, a quarter million miles from home. A quarter million miles from help. NASA is about to launch Apollo 18. While the mission has been billed as a scientific one, flight controller Kazimieras "Kaz" Zemeckis knows there is a darker objective. Intelligence has discovered a secret Soviet space station spying on America, and Apollo 18 may be the only chance to stop it. But even as Kaz races to keep the NASA crew one step ahead of their Russian rivals, a deadly accident reveals that not everyone involved is quite who they were thought to be. With political stakes stretched to the breaking point, the White House and the

Kremlin can only watch as their astronauts collide on the lunar surface, far beyond the reach of law or rescue. Full of the fascinating technical detail that fans of The Martian loved, and reminiscent of the thrilling claustrophobia, twists, and tension of The Hunt for Red October, The Apollo Murders is a high-stakes thriller unlike any other. Chris Hadfield captures the fierce G-forces of launch, the frozen loneliness of space, and the fear of holding on to the outside of a spacecraft orbiting the Earth at 17,000 miles per hour as only someone who has experienced all of these things in real life can. Jesus as he invites us all to his special meal called Holy Communion. Presented in a fun, kid-oriented comic book style. A sister and brother prepare for their first communion. From the bestselling author of Communion comes the mysterious true story of how an unknown visitor barged into Streiber's hotel room late one night--and imparted extraordinary lessons in personal development and man's fate that challenge us to rethink every assumption about the meaning of life. At two-thirty in the morning of June 6, 1998, Whitley Streiber was awakened by somebody knocking on his

hotel room door. A man came in, and everything he said was life-altering. This is the unsettling and ultimately enlightening narrative of what happened that night. Strieber was never really sure who this strange and knowing visitor was--a "Master of Wisdom"? A figure from a different realm of consciousness? A preternaturally intelligent being? He called him the Master of the Key. The one thing of which Strieber was certain is that both the man and the encounter were real. The main concern of the Master of the Key is to save each of us from self-imprisonment. "Mankind is

trapped," the stranger tells Strieber. "I want to help you spring the trap." In a sweeping exchange between Strieber and the stranger--which takes the form of a classical student-teacher dialogue in pursuit of inner understanding--the unknown man presents a lesson in human potential, esoteric psychology, and man's fate. He illuminates why man has been caught in a cycle of repeat violence and self-destruction--and the slender, but very real, possibility for release. In its breadth and intimacy, The Key is on par with contemporary metaphysical traditions, such as A Course in Miracles, or even

with the dialogues of modern wisdom teachers, such as D.T. Suzuki and Carl Jung. Thus begins the most astonishing true-life odyssey ever recorded—one man's riveting account of his extraordinary experiences with visitors from “elsewhere” . . . how they found him, where they took him, what they did to him, and why. Believe it. Or don't believe it. But read it—for this gripping story will move you like no other. It will fascinate you, terrify you, and alter the way you experience your world.

A New World
The Communion Letters
First Communion Book

Blood Communion
An Inconvenient Woman
A Tale of Prince Lestat

In September of 2015 the visitors in Whitley Strieber's immortal bestseller Communion returned to his life. A New World details their powerful message: A new world is coming...if we can take it. In 2018, the US Navy admitted that videos taken off the carrier Nimitz by pilots using ultra-sophisticated cameras were of unknown objects with incredible flight characteristics. Add to this the past seventy years of UFO evidence, and it is now undeniable that something

unknown is flying around in our skies. But why are they here? There are millions of close encounter witnesses who would say that they are here for us, and have already been in contact with us for two generations, while the official world and the media have been in denial. In 1987, author Whitley Strieber published Communion about his own close encounter. It was met with brutal skepticism...but not from other close encounter witnesses, who wrote him in the hundreds of thousands, telling of their own experiences. With these overwhelming accounts of

alien encounters, Rice University in Houston, Texas, has archived these letters as a testimony that we are not alone. After thirty-three years of having them in his life, and an entirely new group of encounters starting in 2015, Whitley Strieber returns with a new vision of contact that will shatter all of our previous theories and beliefs and reveal the experience for what it is: the strangest, most powerful, and potentially most important thing that has ever happened to mankind.

The author of "The Wolfen" and "The Hunger" tells the true story of his encounters

with intelligent nonhuman beings and explains how his initial skepticism turned into a frightened but clear and open curiosity

The bestselling author probes the ultimate significance behind today's increasing reports of UFOs, alien abductions, crop circles, and other unexplained phenomena- and what they mean for humanity's immediate future. In 1987 writer Whitley Strieber exposed the world to the truth about alien abduction in his landmark memoir,

Communion. For the first time in years, Strieber revisits his encounter with alien intelligences-but now dramatically widens his search to explore how "the visitors" connect with today's persistent and globe-spanning reports of anomalous phenomena, such as crop circles, cattle mutilations, UFO sightings, alien abductions, near-death experiences, close encounters, and unexplained bodily implants. In his magisterial style, Strieber contextualizes these bizarre and unsettling reports with his own childhood memories of strange schools, sinister experiments, and

family secrets. In exploring today's most convincing cases of unexplained phenomena, Strieber reasons that they are not unrelated events. Nor are they the result of mass delusion. In some of his most persuasive writing, Strieber argues that the wave of mysterious episodes marks a transition that humanity is undergoing right now. Against all conscious understanding, we are experiencing a broadened awareness of dimensions of reality that exist beyond our current perceptions.

Meeting Jesus, Your True Joy

As founding pastor of St. Lydia's in Brooklyn, New York, where worship takes place over a meal, Emily Scott spent eight years ministering to a scrappy collective of people with different backgrounds, incomes, and levels of social skills. Each week they broke bread, sang hymns, made halting conversation with strangers, then did the dishes. But in a city where everyone lives on top of one another yet everyone is lonely, these gatherings filled a longing that most people—even Scott—didn't realize they felt. With

tenderness and humor, Scott weaves stories and reflections from the life of her unlikely congregation. Recalling her journey as a single woman and a pastor looking for love and friendship in a city of millions, she discovers how small acts of connection hold more power than we realize in a time when our differences are being weaponized, and creates activism and justice work fueled by empathy and relationship. For All Who Hunger articulates the value of church as a place where people can hear not only that they are loved but that they are good. When members of Scott's congregation build relationships

with their neighbors in one of the world's most unequal cities, they find courage and resources to begin working for a more just world. For All Who Hunger is a story about a God whose love has no limits and a faith that opens our eyes to the truth. There's a place for you at the table.

What she uncovers sends shock waves through the corridors of power. Caught in an accelerating tempest of secrecy and lies, Susan Fletcher battles to

save the agency she believes in. Betrayed on all sides, she finds herself fighting not only for her country but for her life, and in the end, for the life of the man she loves. From the underground hallways of power to the skyscrapers of Tokyo to the towering cathedrals of Spain, a desperate race unfolds. It is a battle for survival--a crucial bid to destroy a creation of inconceivable genius...an impregnable code-writing formula that threatens to obliterate the post-cold war balance of power. THE HEART OF THE MYSTERY They are called Others, Visitors, Grays, Friends, or Strangers. No one knows who or what they are. But

due to intense investigations of the past few years, resulting from the publication of the controversial bestseller *Communion*, their reality is no longer a question. **THEY ARE AMONG US.** These letters, often awkward, sometimes incredulous, and always searingly honest, document the fact that hundreds of thousands have experienced the *Communion* phenomena: childhood visitations, the "nine knocks," mysterious scars and implants, abductions, sexual encounters, and "black sedans." It's all here. Unvarnished and irrefutable. Assembled for the first time, these letters lead us to the heart of the greatest mystery of our age. For it is in these

authentic personal encounters of ordinary men and women that we come closest to the truth about who They are and what They want with us. In the dramatic words of Whitley Strieber, these letters report—a courtship.

Ivy is disliked by tribal leaders in spite of her obvious love for their
