Leonardo da Vinci – The Graphic Work features top-quality reproductions of 663 of Leonardo's drawings, from anatomical studies to architectural plans, from complex engineering designs to pudgy infant portraits.

Da Vinci's studies allowed him to create images of people that were highly realistic and very dynamic. The emotions expressed by Leonardo are much more naturalistic than previous artists. Leonardo inspired many painters to adopt a more naturalistic approach. He wrote about his painting techniques in his widely read Treatise on Painting.

The Vitruvian Man (Italian : L'uomo vitruviano ['lwo:mo vitru'vja:no] ; originally known as Le proporzioni del corpo umano secondo Vitruvio, lit. 'The proportions of the human body according to Vitruvius') is a drawing made by the Italian polymath Leonardo da Vinci in about 1490.
