Why do people in socialist China read and write literary works? Earlier studies in Western Sinology have approached Chinese texts from the socialist era as portraits of society, as keys to the tug-of-war of dissent, or, more recently, as pursuit of "pure art." The Uses of Literature looks broadly and empirically at these and many other "uses" of literature from the points of view of authors, editors, political authorities, and several kinds of readers. Perry Link, author of Evening Chats in Beijing, considers texts ranging from elite "misty" poetry to underground hand-copied volumes (shouchauben) and shows in concrete detail how people who were involved with literature sought to teach, learn, enjoy, explore, debate, lead, control, and resist. Using the late 1970s and early 1980s as an entree to the workings of China's "socialist literary system," the author shows how that system held sway from 1950 until around 1990, when an encroaching market economy gradually but fundamentally changed it. In addition to providing a definitive overview of how the socialist Chinese literary system worked, Link offers comparisons to the similar system in the Soviet Union. In the final chapter, the book seeks to explain how the word "good" was used and understood when applied to literary works in such systems. Combining aspects of cultural and literary studies, The Uses of Literature will reward anyone interested in the literature of modern China or how creativity is affected by a "socialist literary system."

What makes a picture offensive to some people and not to others? In diverse, pluralistic societies around the world, images are triggering heated controversy as never before. Their study offers a perfect entry point into the clashes between different values, ideas, and sensibilities. How is the relation between regimes of visibility in art, journalism, politics, and religion negotiated in plural settings? Situated at the interface of art history, anthropology and religious studies, this volume unravels the dynamics of taking offense in current politics and aesthetics of cultural representation in Europe and beyond.

Through music therapy interventions individuals with disabilities are encouraged to increase vocalization and make movements to music. Individuals who have Intellectual Disabilities all have diverse strengths, weaknesses, needs, and personalities. Within a group with a variety of individuals it is clear, however, that there are several marked characteristics and needs, which may be common to many individuals with Intellectual Disabilities. Two difficult commonly faced are in the area of vocalization skills and gross motor skills (Peters 84). Developing vocalization skills can assist individuals with Intellectual Disabilities in being able to communicate within their community more clearly. Vocalization aids in the development of functional communication skills. It also helps individuals with Intellectual Disabilities communicate their specific needs, wants, and wants, and discomforts within the community. Improving gross motor skills would help individuals to increase their personal independence, not only at the day care center but also in the community. In general, both vocalization and gross motors skill development helps to improve the self-help skills of individuals with Intellectual Disabilities, which in-turn increases quality of life. Young adults with disabilities attend daily art and music therapy centered classes aimed at helping to improve daily functioning and increase community integration. A unique and diverse group of students with disabilities attend day programs and communicate by using both verbal and nonverbal communication. Decreased vocalization can make it difficult for some students to clearly express their needs and wants. Limited motor skill decreases participation at a day program, and in home and community activities. Music therapy interventions will assist and encourage individuals with disabilities to increase vocalization and make movements to music, which in turn will improve their quality of life.

In 2017, a routine network television investigation led to a story only whispered about: one of Hollywood's most powerful producers was a predator, protected by fear, wealth, and a conspiracy of silence. As Farrow drew closer to the truth, shadowy operatives, from high-priced lawyers to elite war-hardened spies, mounted a secret campaign of intimidation, threatening his career, following his every move, and weaponizing an account of abuse in his own family. This is the untold story of the exotic tactics of surveillance and intimidation deployed by wealthy and connected men to threaten journalists, evade accountability, and silence victims of abuse. India has been the focus of international attention in the past few years. Rhetoric concerning its rapid economic growth and the burgeoning middle classes suggests that something new and significant is taking place. Something has changed, we are told: India is shining, the elephant is rising, and the 21st century will be Indian. What unites these powerful re-imaginings of the Indian nation is the notion of change and its many ramifications. Election campaigns, media commentators, scholars, activists and drawing room debates all cut their teeth around this complex notion. Who is it that benefits from this change? Do such re-imaginings of nationhood really reflect the complex social reality of large parts of the Indian population? The book starts with the premise that it is within the mass media where we can best understand how this change is imagined. From a kaleidoscope of perspectives the book interrogates this articulation and the myriad forms it takes - across India's newsrooms, television sets, cinema halls, mobile phones and computer screens.

The fifteenth book to feature the classic crime-solving detective, Chief Inspector Wexford. The thirteenth of May is famously the unluckiest day of the year. Sergeant Caleb Martin of Kingsmarkham CID had no idea just how terminally unlucky it would prove, as he embarked upon his last day on earth... Ten months later, Wexford is confronted with a murder scene of horrific brutality. At first the bloodbath at Tancred House looks like the desperate work of a burglar panicked into murder. The sole survivor of the massacre, seventeen-year-old Daisy Flory, remembers the events imperfectly, and her confused account of the fatal night seems to

confirm this theory. But more and more, Chief Inspector Wexford is convinced that the crime lies closer to home, and that it has sinister links to the murder of Sergeant Martin...

This volume is the first fully comprehensive account of film production in the Third World. Although they are usually ignored or marginalized in histories of world cinema, Third World countries now produce well over half of the world's films. Roy Armes sets out initially to place this huge output in a wider context, examining the forces of tradition and colonialism that have shaped the Third World--defined as those countries that have emerged from Western control but have not fully developed their economic potential or rejected the capitalist system in favor of some socialist alternative. He then considers the paradoxes of social structure and cultural life in the post-independence world, where even such basic concepts as "nation," "national culture," and "language" are problematic. The first experience of cinema for such countries has invariably been that of imported Western films, which created the audience and, in most cases, still dominate the market today. Thus, Third World film makers have had to assert their identity against formidable outside pressures. The later sections of the book look at their output from a number of angles: in terms of the stages of overall growth and corresponding stages of cinematic development; from the point of view of regional evolution in Asia, Africa, and Latin America; and through a detailed examination of the work of some of the Third World's most striking film innovators. In addition to charting the broad outlines of filmic developments too little known in Europe and the United States, the book calls into question many of the assumptions that shape conventional film history. It stresses the role of distribution in defining and limiting production, queries simplistic notions of independent "national cinemas," and points to the need to take social and economic factors into account when considering authorship in cinema. Above all, the book celebrates the achievements of a mass of largely unknown film makers who, in difficult circumstances, have distinctively expanded our definitions of the art of cinema. Roy Armes, who lives in London, has written nine books on film, his most recent being French Cinema. He spent more than three years researching this volume.

America's most influential writing teacher offers an engaging and practical guide to effective short-form writing. In How to Write Short, Roy Peter Clark turns his attention to the art of painting a thousand pictures with just a few words. Short forms of writing have always existed--from ship logs and telegrams to prayers and haikus. But in this ever-changing Internet age, short-form writing has become an essential skill. Clark covers how to write effective and powerful titles, headlines, essays, sales pitches, Tweets, letters, and even self-descriptions for online dating services. With examples from the long tradition of short-form writing in Western culture, How to Write Short guides writers to crafting brilliant prose, even in 140 characters.

"SEXUAL SATANISM or HOW TO SEDUCE WOMEN BY MAGIC is an outrageous and hilariously funny How To manual, supposedly intended to instruct the socially inept and sexually deprived male in the art of seduction; but in reality is more likely to titillate and amuse intelligent middle-aged and generation X women who read and even a few above average worldly-wise men. A work of wry, irreverent humour, it debunks the Bible and the blasphemous defamation of women and sex by the dirty minded all-male hierarchies of all three great monotheistic religions. It mocks misogyny, the masculine mystique, conformity, piety, prudery, feminism and all that medieval foolishness dear to the hearts of fundamentalist socio-religious fanatics of all persuasions, domestic and foreign." --The Montserrat Times.
