“Nine tomorrows” is a collection
of stories by Isaac Asimov
originally published between 1956
and 1958. I’ve given the stories an

Page 20/92

average rating of 4.3. In my opinion the short story forms are ideal for sf, but a lot of what gets published fails the first test - they aren't stories. Asimov always gives you a beginning, a middle and an end.
