A New York Times
Outstanding Book
for young adult
readers, this
biography of the
famed

Underground
Railroad

abolitionist is a
lesson in valor and

Page 13/158

justice. Born into slavery, Harriet Tubman knew the thirst for freedom. Inspired by rumors of an “underground railroad” that carried slaves to liberation, she dreamed of escaping the nightmarish existence of the

Page 14/158

Southern
plantations and
choosing a life of
her own making.
But after she finally
did escape,
Tubman made a
decision born of
profound courage
and moral
conviction: to go
back and help
those she'd left

Page 15/158

behind. As an activist on the Underground Railroad, a series of safe houses running from South to North and eventually into Canada, Tubman delivered more than three hundred souls to freedom. She became an

Page 16/158

insidious threat to the Southern establishment—and a symbol of hope to slaves everywhere. In this “well-written and moving life of the ‘Moses of her people’” (The Horn Book), an acclaimed author makes vivid and accessible the life

Page 17/158

of a national hero,
soon to be
immortalized on
the twenty-dollar
bill. This intimate
portrait follows
Tubman on her
journey from
bondage to
freedom, from
childhood to the
frontlines of the
abolition movement

and even the Civil War. In addition to being named a New York Times Outstanding Book, Harriet Tubman: Conductor on the Underground Railroad was also selected as an American Library Association Notable Book.

"A collection of ten short stories that all take place in the same day about kids walking home from school"--

Jeffrey isn't a little boy with cancer anymore. He's a teen who's in remission, but life

Page 80/158

still feels fragile. The aftereffects of treatment have left Jeffrey with an inability to be a great student or to walk without limping. His parents still worry about him. His older brother, Steven, lost it and

Page 81/158

took off to Africa to be in a drumming circle and "find himself." Jeffrey has a little soul searching to do, too, which begins with his escalating anger at Steven, an old friend who is keeping something secret,

Page 82/158

and a girl who is way out of his league but who thinks he's cute. With this significant new work, Larry Cuban provides a unique and insightful perspective on the bridging of the long-standing and

Page 83/158

well-known gap
between teachers
and administrators.
Drawing on the
literature of the
field as well as
personal
experience, Cuban
recognizes the
enduring structural
relationship within
school

Page 84/158

organizations
inherited by
teachers,
principals, and
superintendents,
and calls for a
renewal of their
sense of common
purpose regarding
the role of
schooling in a
democratic

Page 85/158

society. Cuban analyzes the dominant images (moral and technical), roles (instructional, managerial, and political), and contexts (classroom, school, and district) within

Page 86/158

which teachers, principals, and superintendents have worked over the last century. He concludes that when these powerful images and roles are wedded to the structural conditions in which

Page 87/158

schooling occurs, “managerial behavior” results, thus narrowing the potential for more thoughtful, effective, and appropriate leadership. Cuban then turns to consider this situation with

Page 88/158

respect to the contemporary movement for school reform, identifying significant concerns both for policymakers and practitioners. This honest, thought-provoking book by a leading scholar,

Page 89/158

writer, and
practitioner in the
field represents an
invaluable
resource—an
insightful
introduction for
those just entering
the field and a
fresh, new
perspective for
those long-familiar

Page 90/158

with its complexities. Cuban's ethnographic approach to the development of his own career and viewpoint, as well as his highly readable style, make this a work of lasting value.

Page 91/158

. Renewal of Life
by Transmission.
The most notable
distinction
between living and
inanimate things is
that the former
maintain
themselves by
renewal. A stone
when struck
resists. If its

Page 92/158

resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it

Page 93/158

may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries

Page 94/158

to turn the energies which act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living

Page 95/158

thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means

Page 96/158

of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows.

Understanding the

Page 97/158

word "control" in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing

Page 98/158

process through
action upon the
environment.

Bobby Phillips is an average fifteen-year-old-boy.

Until the morning he wakes up and can't see himself in the mirror. Not blind, not dreaming-Bobby is just plain invisible. There doesn't seem to

As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education.

Page 150/158

On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in

Page 151/158

northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father

Page 152/158

who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.
