Time to go....I've taken enough of your time..... My life has been a good life. I think I handled everything that was thrown at me. I know others were involved in some of the trials and tribulations that came my way and I hope I handled them OK. If I didn't, I'm truly sorry. Growing up I thought my childhood was bad in some respects. But a couple of things have changed that idea. One was writing this story. The other was back into the 80's when my mother moved to Seattle and I listened to her talk to my daughters about my childhood. When I listened to her tell those stories, I realized I had built a wall around my upbringing and I was steadfast in thinking, "it wasn't as good as it could have been". Those stories made me realize, "I did have a good childhood", and just maybe..... I could have been a better son.

The second in the Electra McDonnell series from Edgar-nominated author Ashley Weaver, *The Key to Deceit*, is a delightful World War II mystery filled with spies, murder, romance, and wit. London, 1940. After years of stealing from the rich and giving to the poor—well, to themselves, anyway—Ellie McDonnell and her family have turned over a new leaf as they help the government's war effort. It's true that the straight-laced Major Ramsey didn't give them much choice, but still, Ellie must admit she doesn't miss breaking and entering as much as she might have thought. What she does miss is the challenge of unlocking an impossible code and the adrenaline rush that comes from being somewhere she shouldn't. So when Major Ramsey turns up unannounced with another job, she can't say no. A woman's body has been found floating in the Thames, with a bracelet locked onto her wrist, and a cameo locket attached to it. It's clear this woman was involved in espionage, but whose side was she on? Who was she reporting to? And who wanted her dead?

"Wonderful . . . J. V. Jones is a striking writer." So says Robert Jordan, the author of *The Wheel of Time* epic fantasy series. And Jones lives up to that praise in the highly charged epic adventure of Ash March and Raif Sevrance, two outcasts whose fate are entwined by ancient prophecies and need, in the cold, dark world that threatens to be torn asunder by a war to end all wars. Isolated by their birthrights, they are but two who fight the dreaded Endlords, and their strength and courage will be needed if the world is to be saved from darkness." Raif, wrongly

accused and cut off from his clan by the treachery of their new headsman, has a talent for killing that is part of his curse and his burden. But he bears another burden of greater weight. Ash is a sacred warrior to the Sull, an ancient race whose numbers have declined. Raised as a foundling, never knowing her true history, she must learn to accept the terrible gifts of her heritage. But as Ash learns more of her greater fate, Raif's task looms dark and desperate, for he must journey through the nightmare realm of the Want, a place where even the Sull now fear to tread. For deep within the Want is the Fortress of Grey Ice, and there he must heal the breach in the Blindwall that already threatens the world. Should he fail, not even Ash's powers can save them. . . . **The anthrax attacks in September and October 2001 highlighted the need to develop medical countermeasures. The Project BioShield Act of 2004 authorized the Department of Health and Human Services (HHS) to procure countermeasures for a Strategic National Stockpile. However, in December 2006, HHS terminated the contract for a recombinant protective antigen (rPA) anthrax vaccine because VaxGen failed to meet a critical contractual milestone. Also, supplies of the licensed BioThrax anthrax vaccine already in the stockpile will start expiring in 2008. GAO was asked to identify (1) factors contributing to the failure of the rPA vaccine contract and (2) issues associated with using the BioThrax in the stockpile. GAO interviewed agency and industry officials, reviewed documents, and consulted with biodefense experts.**

In Ben Sanders's American Blood, a former undercover cop now in witness protection finds himself pulled into the search for a missing woman; film rights sold to Warner Bros with Bradley Cooper attached to star and produce. After a botched undercover operation, ex-NYPD officer Marshall Grade is living in witness protection in Santa Fe, New Mexico. Marshall's instructions are to keep a low profile: the mob wants him dead, and a contract killer known as the Dallas Man has been hired to track him down. Racked with guilt over wrongs committed during his undercover work, and seeking atonement, Marshall investigates the disappearance of a local woman named Alyce Ray. Members of a drug ring seem to hold clues to Ray's whereabouts, but hunting traffickers is no quiet task. Word of Marshall's efforts spreads, and soon the worst elements of his former life, including the Dallas Man, are coming for him. Written by a rising New Zealand star who has been described as "first rate," this American debut drops a Jack Reacher-like hero into the landscape of No Country for Old Men.

The coastal and archipelago areas in the Baltic Sea are popular destinations for a number of tourists. An important group of tourists is boaters, who visit the coastal areas during a short summer period. Boat owners are sometimes pictured as having a great interest for the nature and a willingness to do right. Pollution from pleasure boats such as discharges of oil and fuel, antifouling paints and cleaning agents have a negative impact on the coastal environment. Environmentally sound alternatives exist to some extent, but are not very common. Sustainable alternatives for boaters are lacking behind. One of the underlying purposes of this study was to understand how we can help boat owners change their behaviour and decrease the negative impact on the marine environment. The survey among boaters has been conducted in Finland, Sweden and Denmark with a web based survey ordered by the Keep Sweden Tidy Foundation together with Keep the Archipelago Tidy Association in Finland and the Danish Outdoor Council. The research was performed by SIFO Research International.
